OVERVIEW

Aspiring Full Stack Developer proficient in HTML, CSS, and JavaScript with a background in Industrial and Systems Engineering. Constantly optimizing cost efficiency and productivity even in everyday life, therefore looking to make life a little easier for people in this constantly changing world through developing practical web apps.

EDUCATION

Rutgers University, New Brunswick, NJ
B.S. in Industrial and Systems Engineering, May 2016
Full Stack Web Development Bootcamp Certificate, May 2018

ACADEMIC PROJECTS

Automated Fruit Basket Assembly *(Design of Engineering Systems II Course)*
- Designed and constructed a fully automated fruit basket arrangement and delivery system with a customer-friendly user interface.
- Eliminated manual labor using an Arduino to control a robotic arm and other parts requiring motors.
- Optimized overall process time from assembly to delivery by coding an algorithm in MATLAB.

WORK EXPERIENCE

Charles G.G. Schmidt & Company, Inc., Montvale, NJ
Assistant Drafter, September 2017-February 2018
- Produced between 9-25 CAD drawings per day tailored to client's requested woodworking knife shape using Cutting Shop and Graphite.
- Expedited the drawing process by regular communication with sales representatives to effectively identify customer's order specifications.
- Prepared CNC programs via FlowPath and FlowCut for the machine shop to complete the orders.

C2 Education, Closter NJ, Closter, NJ
Tutor/Admin, January 2016-May 2016
- Aided students ranging from 3rd grade to 11th grade in a 3 to 1 setting in their respective mathematics course up through BC Calculus for both enrichment and reinforcement.
- Mentored rising high school juniors and seniors and implemented SAT and ACT study plans specifically fit to meet students' needs.

Azuma Foods International Inc, U.S.A, East Rutherford, NJ
Summer Intern, June 2012 - August 2012
- Advertised company products in both Japanese and English by designing and publishing promotional material with Adobe Illustrator and Photoshop.
- Updated monthly sales logs to ensure accurate carry-over of data using Microsoft Excel.
